LITE EVO

The LITE EVO is an evolution of the bestseller FS242 LITE. This new harness offers all the advantages of the LITE, as the front loops have been evolved into ergonomic textile rings that offer the user an anchor point A and are integrated into the design and manufacture of the equipment itself. Materials are thus reduced and the harness is extremely easy to wear and offers the user great mobility and comfort. This evolution is made up of padding on the upper part Croc 3.0 and padding on the sides, in silicone, extremely resistant to impacts. The equipment is identified with an RFID tag, S/N label and QR code for easy tracking and control.
